

Advancing Geophysical Innovation
BEIJING, CHINA • 21–24 APRIL 2014

The CPS/SEG Beijing 2014 International Geophysical Conference and Exposition will be held in Beijing, China, 21–24 April 2014. CPS/SEG Beijing 2014 organizers invite you to submit abstracts to be considered for oral or E-poster presentation at this upcoming meeting. Submissions must conform to SEG formats described in the abstract kit, be written in acceptable English, and contain high-quality graphics.

Primary categories for the CPS/SEG Beijing 2014 Technical Program are as follows:

- Oil and gas exploration and development
- E&P geosciences challenges in China
- Seismic data acquisition techniques
- Simultaneous sources
- Broadband seismic techniques
- Seismic processing
- Seismic imaging
- Full wavefield inversion & modeling
- Velocity model building
- Seismic modeling and inversion
- Seismic interpretation
- Seismic attribute analysis and interpretation
- Reservoir characterization
- Electrical and electromagnetic methods
- Potential field methods-such as Gravity, Electrical and Magnetic (GEM)
- Borehole geophysics
- Rock physics
- 4D/time lapse reservoir monitoring
- Unconventional resources development
- Micro-seismic and passive seismic
- Fractured reservoirs
- Near surface geophysics
- Environmental and engineering geophysics
- Mining geophysics
- Geomechanics & pore pressure analysis
- Geochemistry
- Gas hydrates
- Risk analysis in E&P
- Geophysical instrumentation and equipment
- Integrated interpretations studies
- Case histories
- Data management
- Multi-wave and multi-component seismology
- Coal and CBM geophysical exploration
- Other related categories

Call for Papers

Abstract kits will be available on the SEG Web site in May.

Hardcopies can be requested from the SEG Business Office.
